Subject – Brawley Landscape Project

Dear Ms. Blanco-Krauss,

The City of Brawley received a request to supply water for a Caltrans project to install landscape, irrigation, slope paving and plant establishment on Route 78 and 111 (Brawley Bypass) on March 17, 2014. The City of Brawley City Council authorized the issuance of a will serve letter to Caltrans for water service associated with the proposed Brawley Bypass Landscaping project on April 15, 2014.

The City of Brawley will supply the anticipated project water demand of approximately 215,000 gallons of potable water. The project plans propose a 2-inch water connection near the intersection of the Brawley Bypass and Shank Road. The connection will be made according to City of Brawley standard details hereby attached. This connection will be subject to the payment of water capacity fees in the amount of $42,207.20, as well as current and published City of Brawley water rates.

Please free to contact me if you have any questions at (760) 344-5800 Ext. 19.

Sincerely,

Yazmin Arellano, P.E.
Public Works Director
