

California Traffic Control Devices Committee Agenda Item Report

Meeting Date: August 04, 2022 Item Number: 16-23	From: Julie Jang, Assistant Engineer, City of Goleta
Sponsored By: Bryan Jones, Caltrans Active Transportation Representative	Presented By: Gurinderpal (Johnny) Bhullar, PE, TE, Secretary, CTCDC
Description: Request for Closure of Experiment with Green backed sharrow markings.	

Recommendation:

Motion by committee to approve closure of this experiment, that was never implemented, in response to City of Goleta's (experimenting agency) email dated March 10, 2022, requesting closure of experiment.

Agency Making Request/Sponsor:

Julie Jang (City of Goleta) / Bryan Jones, CTCDC Member.

Background:

City of Goleta requested approval from CTCDC to experiment with the green backed sharrow markings on Hollister Avenue in Old Town. CTCDC provided approval in CTCDC's September 1, 2016, meeting.

City no longer needs to install the Greenback Sharrow on Hollister Avenue in Old Town and requests closure of this experiment. These experimental markings were planned to be installed on the pavement surface after completion of the pavement project on this roadway segment. The pavement project faced continued multiple year delays from 2016 through 2018, resulting in the City choosing not to install these sharrow markings and deciding not to implement the experiment

Robert,

We no longer need to install the Greenback Sharrows on Hollister Avenue in Old Town. Please close out the project case.

Thank you,

Julie Jang
