

CTPAC – PROPOSAL- ADDENDUM

SUBJECT: Allow Maximum Chart Weight For Fix Load Vehicles Section 305.2.1

DATE: October 7, 2004

POLICY: CTPAC –WG7 – 062804 - 001

PROPOSED CHANGE - ADDENDUM

The Annual Permit Committee Workgroup recently had a conference call meeting with Caltrans. We discussed and recommended the following change to the original proposal, Allow Maximum Chart Weight For Fix Load Vehicles Section 305.2.1.

Maximum Chart Weight will only be allowed within the qualifying chart weight class at the time the unit or vehicle is weighed for the Caltrans Inspection Report. If you are within the Green weight class, you will be allowed maximum green weight. If you are within the Purple weight class, you will be allowed maximum purple weight.
