Ramp closures: Bridge work continues on SR-22

Santa Ana — The California Department of Transportation (Caltrans) is continuing a \$2.07 million project on State Route 22 this week. Multiple on-ramps and off-ramps along SR-22 will be closed Sunday, June 11, through Wednesday, June 14.

The work involves the application of Methacrylate Deck Seal Treatment and replacement of Joint Seals on bridges. The work is designed to extend the life of the roadways and bridges. Work will take place between 10 p.m. and 5 a.m. Every effort will be made to minimize the impacts of construction to motorists.

The contractor is Peterson/Chase Inc. of Irvine.

Caltrans appreciates the public's patience. To ensure the safety of the traveling public and workers in a construction zone, please remember to "slow for the cone zone," "move over," be alert, proceed with caution and remember that fines can be doubled in construction zones.

For more information on this project, you may contact the District 12 Public Information Office at (657) 328-6000 or log on to the Caltrans website at www.dot-ca.gov/dist12.

Closures are on the following page.

Disclaimer: Due to unforeseen operational factors or inclement weather, these times and dates may change.

**SLOW FOR THE
CONE ZONE**

California law requires vehicles to safely reduce speed, move over, and merge into unoccupied lanes when emergency vehicles, construction vehicles, or tow trucks are displaying flashing warning lights.

Caltrans reminds motorists to use extra caution and reduce speeds when driving through construction zones.
