CAPABILITY STATEMENT

BUSINESS SUMMARY

Paleo Solutions is a certified WBE/SBE/DBE corporation in our ninth year of successful paleontological and archaeological field services. We have experience with many types of construction projects, including energy, pipelines, transportation, water, infrastructure and landfills.

CAPABILITIES

- Paleontological, Archaeological and Cultural Surveys and Monitoring
- Resource Management and Compliance Documentation
- Environmental Impact Reports, Assessments and Reviews
- Treatment Plans (Development and Implementation)
- Third-Party Review
- Environmental Training Awareness Programs
- GIS & Mapping Capabilities

EXPERTISE

Our professional staff has extensive experience, allowing us to develop cost-effective mitigation solutions for local governments, private developers, planning firms, public utilities and other entities throughout California conducted according to Society Vertebrate Paleontology (SVP), Bureau of Land Management (BLM), museum standards and agency guidelines.

Our staff has experience consisting of permitting, analyses, surveying, implementing mitigation and monitoring plans, documentation review, writing EIR/EIS documentation (CEQA/NEPA Compliance), fossil collection, fossil preparation, museum curation, and technical report preparation.

We have a modern and complete facility capable of housing large and small specimens and staff experienced in proper paleontological and archaeological preparation for curation in museums and repository facilities.
