Attention: Certified Coatings Company
 2320 Cordelia Road

IN LOS ANGELES COUNTY
 IN LOS ANGELES
 AT ANAHEIM STREET OVERHEAD

<p>Description of Equipment/Service- Transportation & disposal of approximately 40 tons of sand blast material with lead based paint. The material will be transported & disposed of at a Caltrans approved Class I facility in California. Material will be tested, profiled and approved to the appropriate Class I facility in California prior to the storage containers being removed from the site. The material will be transported as a Non RCRA hazardous waste, on a uniform hazardous waste manifest provided by BTI. If analytical data shows the waste to be RCRA hazardous additional disposal fees apply as well as BOE taxes. RCRA is a Federal regulation whereas NON RCRA is a California regulation. Subject: Licensing Determination

Dear Mr. Hipp:

This is in response to your December 20, 1999 letter to Everett Lawson in which you requested a licensing determination for the scope of work that you identified as "shrink wrap" process. A copy of your letter is attached for reference.

Within the State of California, the section of law that is controlling with regard to licensing determinations is Business and Professions Code Section 7026 which states:

7026. "Contractor" for the purposes of this chapter, is synonymous with "builder" and, within the meaning of this chapter, a contractor is any person, who undertakes to or offers to undertake to, or purports to have the capacity to undertake to, or submits a bid to, or does himself or by or through others, construct, alter, repair, add to, subtract from, improve, move, wreck or demolish any building, highway, road, parking facility, railroad, excavation or other structure, project, development or improvement, or to do any part thereof, including the erection of scaffolding or other structures or works in connection therewith, or the cleaning of grounds or structures in connection therewith, or the preparation and removal of roadway construction zones, lane closures, flagging, or traffic diversions, and whether or not the performance of work herein described involves the addition to or fabrication into, any structure, project, development or improvement herein described of any material or article of merchandise. "Contractor" includes subcontractor and specialty contractor. "Roadway" includes, but is not limited to, public or city streets, highways, or any public conveyance.

It is my determination that the scope of work identified in your 12/20/99 letter does not fall under the provisions of section 7026 and is therefore not subject to licensure by the Contractors State License Board.

Sincerely,

Michael A. Brown
Chief, Licensing Division

Important Safety Guidelines

Safety is everyone's responsibility. Safway equipment is designed and manufactured with the user in mind. The care that goes into each piece of equipment, however, cannot offset carelessness on the part of the user. Follow these safety guidelines in order to help prevent injury and to reduce unnecessary risk.

1. **Competent Person.** Scaffold must be erected, used, moved, and disassembled only under the direction of a Competent Person. The customer is responsible for following any and all applicable federal and state occupational safety and health laws, rules, regulations and ordinances in addition to applicable city, county or local codes and specific rules with regard to Competent Person and inspection requirements for scaffolds.
2. **Modification.** Any modification or relocation of scaffolding equipment and its components by the customer, contractor or any subcontractor using the scaffold is done solely at the customer's risk and should be in compliance with and according to any and all federal and/or state occupational safety and health laws, rules, and regulations, in addition to applicable city, county, or local codes. The equipment shall only be used for the purposes for which it was designed.
3. **Training.** The customer is responsible for providing any and all required scaffolding training for its employees and any other users of scaffolding equipment, other than the employees of Safway and any Safway subcontractor.
4. **Hazardous Materials.** Please notify Safway of the potential for exposure of either Safway employees or Safway equipment to any hazardous materials including, but not limited to, asbestos, lead, arsenic, chemicals, and flammable materials. Safway and/or the customer may be required to perform industrial hygiene monitoring to measure potential exposure to such materials.
5. **Confined Space.** Please notify Safway if any Safway employees will be working in a confined space and inform Safway whether the confined space is permit-required. According to federal and state occupational safety and health laws, the customer is responsible for providing any and all required confined space training for its employees and any other users of scaffolding equipment in the confined space, other than the employees of Safway and any Safway subcontractor.
6. **Lock-out/Tag-out.** According to federal and state occupational safety and health laws, the customer is responsible for ensuring that all mechanical equipment, electrical circuits, or vessels containing chemicals or pressurized fluids which are located in the immediate vicinity of the work areas are de-energized or rendered inoperative prior to work, and that proper tags and/or locks are attached to all points where such equipment can be energized.
7. **Special Equipment.** Please notify Safway if any specialized equipment including, but not limited to, special tools, lighting, or protective equipment is required for this project prior to Safway's commencement of work on the project.
8. **Accident Notification.** Please notify Safway immediately of any accident involving the equipment and/or any accident causing injury, death or property damage that is related to or is alleged to be related to and/or caused by the equipment in any way.

Understanding and following these safety guidelines will improve safety for all workers on the jobsite. If there are any questions regarding these provisions, or if you need assistance in obtaining additional training for your employees, please contact a Safway representative immediately.

Enclosures. If Safway provides Equipment and/or Services related to the enclosure of scaffolding, then Customer acknowledges and agrees that the Equipment provided or installed by Safway for purposes of enclosing scaffolding is designed and intended to detach under certain weather conditions and that the Equipment (including the scaffolding) may be damaged or destroyed as a result of such detachment. Customer shall be responsible for any and all costs, damages, expenses (including maintenance expenses), and/or liabilities relating to such enclosure Equipment, including any and all costs or damages associated with the replacement thereof or Customer's failure to detach such enclosure Equipment when appropriate or otherwise required by certain weather conditions. In addition, Customer hereby agrees to indemnify, defend, and hold Safway harmless from any and all claims, damages, judgments, or liabilities whatsoever relating to any personal injury (including death) or property damage arising out of or in any way relating to the enclosure Equipment including any damages caused by the detachment of such enclosure Equipment and any enclosure-related services provided by a party other than Safway.

This Rental Period begins when the Equipment is picked up or, if delivered, when Equipment is prepared for shipment in our yard prior to delivery. Customer shall be billed for the Rental Period based upon rates set forth in this Agreement as may be adjusted in accordance with, plus any and all applicable federal, state and local taxes. A credit will be issued upon Customer furnishing satisfactory evidence of tax exempt status.

Incident Notifications. Customer shall notify Safway immediately of any incident or accident that involves (or potentially involves), directly or indirectly, the Equipment or Services and that results (or may result) in death, personal injury, Loss, property damage or an event that triggers (or may trigger) Customer's indemnity obligation set forth above. In addition, Customer shall notify Safway of any inspection or investigation conducted by OSHA or other similar enforcement agency in connection with the Equipment and at a work site where the Equipment is located. Customer shall at all times fully cooperate with Safway to limit the extent of any Losses or damages resulting from such an incident. Customer is deemed to have knowledge of the incident from the time that the Customer or its employees, agents, representatives, contractors, subcontractors, suppliers, vendors, or other parties who report to the Customer, learn of the incident or accident.

Force Majeure. Customer further agrees that nothing in this Agreement shall be construed to limit or negate any statutory or common law rights (including those related to trade secrets) where such rights provide Safway with broader protection than that provided in this Agreement. Customer shall cause each of its agents and employees to comply with the confidentiality restrictions set forth and shall indemnify Safway from any and all damages, costs, and/or expenses (including reasonable attorneys' fees) incurred by Safway as a result of its agents' or employees' unauthorized disclosure of any Confidential Information. Safway shall have exclusive control over all such inventions, discoveries, improvements or ideas. Customer shall cooperate fully, even after termination of this Agreement in a lawful manner and at the reasonable expense (other than for Customer's time) of Safway, in the prosecution of patent applications and in any legal actions and proceedings concerning such inventions, discoveries, improvements, or ideas. Customer shall bear all costs and/or expenses (including reasonable attorneys' fees) incurred by Safway as a result of Customer's default.

RE: Disadvantaged Business Enterprise Certification

Dear Mr. Karanja:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended. This certification will be recognized by all of the U.S. DOT recipients in California. Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS codes form of the application package:

NAICS (2007)	Description
561612	Security Guards and Patrol Services

Your DBE certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the CUCP's website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to ensure your continued DBE status, you are required to submit an annual No Change Declaration Form (which will be sent to you) along with supporting documentation. If no changes are noted, then your DBE status remains current. If there are changes, Metro will review to determine continued DBE eligibility. Please note, your DBE status remains in effect unless Metro notifies you otherwise.

Should any changes occur that could affect your certification status prior to receipt of the No Change Declaration Form, such as changes in your firm's name, business/ mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately. Failure to submit forms and/or change of information will be deemed a failure to cooperate under Section 26.109 of the Regulations.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. Should you have any questions, please contact us at [213-922-2600](tel:213-922-2600). For information on Metro contracting opportunities, please visit our website at www.metro.net.

GDM at a glance

In 2002, Greg Gates founded GDM, a Chicago-based company focused on rewiring residential and commercial high rises for analogue to digital cable and telephone communications.

GDM grew slowly, starting out in a rented garage space with a small staff and serving only one client. Since then, the company moved its operations to Chino, Calif., and expanded its product and service offerings to include engineering and design services, construction equipment rentals and sales, and tools and materials.

Today, GDM is a multimillion dollar company with operations in several states.

RE: Disadvantaged Business Enterprise Certification

Dear Mr. Jones:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended. This certification will be recognized by all of the U.S. DOT recipients in California. Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS codes form of the application package:

NAICS (2007)	Description
541340	Drafting Services
541620	Environmental Consulting Services
561990	All Other Support Services (Flagging (i.e. traffic control) services
423990	Other Miscellaneous Durable Goods Merchant Wholesalers (Signs (except electrical) merchant wholesalers)(Reseller)

Your DBE certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the CUCP's website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to ensure your continued DBE status, you are required to submit an annual No Change Declaration Form (which will be sent to you) along with supporting documentation. If no changes are noted, then your DBE status remains current. If there are changes, Metro will review to determine continued DBE eligibility. Please note, your DBE status remains in effect unless Metro notifies you otherwise.

Should any changes occur that could affect your certification status prior to receipt of the No Change Declaration Form, such as changes in your firm's name, business/ mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately. Failure to submit forms and/or change of information will be deemed a failure to cooperate under Section 26.109 of the Regulations.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. Should you have any questions, please contact us at 213-922-2600. For information on Metro contracting opportunities, please visit our website at www.metro.net.
